

INDUSTRIAL FLUID SYSTEMS

MM-50 Mixing System

Standard Features

- 120 Volt System
- 55 Gallon Steel Mixing Drum
- Shear-Static Mixing Pump
- Mix/Discharge Valve
- Fluid Level Measuring Stick
- Infinitely Variable Mix Ratio
- Small Space Requirements
- 5' chemical hose
- 5' discharge hose
- One Year Warranty
- Operational & Maintenance Manual

Standard Options

- Storage Tank w/ Sensor Kit
- Storage Tank w/ Sensors
- 10 Micron Incoming Water Filter
- Special Hose Lengths
- Drip Pan
- Cart with 4" Casters

The MM-50 Shear-Static Mixing System mixes even the most viscous fluids efficiently and accurately. This compact, manual mixing system was designed for lower-volume applications where concentration control is important. The MM-50 mixes batches of 50 gallons of fluid at a time. It is easy to use and more accurate than other mixing systems because the concentration is based on fluid volume instead of flow.
